

CMD's Message

International Day of Yoga 2021

Dear Colleagues,

International Day of Yoga is celebrated all across the world on 21st June.

Yoga is an ancient science as well as art that deals with the evolution of humanity. It is about adopting the pace of nature to refreshes one's mind and body.

The International Day of Yoga was declared unanimously by the United Nations General Assembly (UNGA) in 2014, considering the healing power of Yoga.

Today, as COVID-19 pandemic continues to upend lives and livelihoods, the message of Yoga in promoting both the physical and mental well-being of humanity has never been more relevant.

As a key to fitness and boosting immunity, Yoga helps in coping with the changing life factors. Hence I suggest that all of us enrich our lives by practising Yoga on a regular basis.

I wish you all Happy International Day of Yoga 2021.

Arun Kumar Shukla

Chairman and Managing Director
