CMD'S MESSAGE ON INTERNATIONAL WOMEN'S DAY, 2022

Dear friends,

I am happy to be amidst you on the occasion of International Women's Day.

We, in our country, acknowledge,

remember and celebrate women in many ways in our everyday life. The worth of a civilization can be judged by the place given to women in the society. Of the several factors that justify the greatness of India's ancient culture, one of the greatest is the venerated place ascribed to women. Manu, the great law-giver, said long ago, 'where women are honoured there reside the gods'.

Today, on International Women's Day, we join the world in paying tribute to women - the world over - for their selfless contribution to society.

Women today are no longer mere recipients of welfare benefits but are recognized as holders of equal rights, equal partners and agents of change with a distinct role to play in public life with their effective participation and decision making.

A world healing from the pandemic has witnessed women stand at the forefront of the COVID-19 crisis, as health care workers, caregivers, innovators, community organizers and as some of the most exemplary and effective national leaders in combating the viral outbreak.

Women have made their presence felt in the challenging domains like the defence services, police and security forces, in sports, academics, space research and innovation, in taking up the cause of the vulnerable and the exploited, in community outreach and mass welfare initiatives.

They are the effective and powerful leaders and change-makers for climate adaptation and mitigation. Accordingly, the theme for International Women's Day, 2022, has been decided as "Gender equality today for a

sustainable tomorrow" by UN Women, recognizing the contribution of women and girls around the world, who are leading the charge on climate change adaptation, mitigation, and response, to build a more sustainable future for all.

On this International Women's Day, every girl child and woman in our country should be assured that the Government of India is fully committed to providing her an enabling environment that affords equal opportunity. She should feel confident that she can achieve her highest aspirations in whichever field she chooses, in sync with the Prime Minister's Beti Bachao Beti Padhao campaign.

In the corporate world, women are resolved to break the traditional glass ceilings by reaching new milestones and making their presence felt in all sectors. As the growing economy of India encourages larger participation of women, it is the onus of the employers to offer them safe and secure work environment and to motivate them to engage in wide spectrum of careers – beyond bias and barriers.

In the words of Rabindranath Tagore, Women are not only the deities of the household fire, but the flame of the soul itself. Keeping these words alive in our minds, HCL will continue to accord women the respect and reverence that is their due, as per the basic values of our grand heritage and as deeply ingrained in our consciousness. On this International Women's Day, let us rededicate ourselves to uphold and propagate these basic values to promote inclusive growth in benefit of the nation.
