NOTICE INVITING EXPRESSION OF INTEREST

EOI No. HCL/KCC-01/2012/01

Date: 23/11/2012

Hindustan Copper Limited is a Government of India enterprise under the administrative control of Ministry of Mines. It was incorporated on 9th November 1967, under the companies Act, 1956.

HCL is the country's only vertically integrated producer of refined copper from indigenous sources. Major activities of HCL are mining, ore beneficiation, smelting, refining and casting of refined copper metal into downstream products.

The company manufactures and markets copper cathodes, copper wire bars, continuous cast copper wire rods and by-products such as anode slime containing precious metal like gold, silver, selenium, copper sulphate and sulphuric acid.

Expression of Interest (EOI) is invited from the reputed registered Firms/Companies/Agencies having inline experience, Provident Fund Registration Certificate, Service Tax Registration Certificate, valid Income Tax PAN for providing services for the following work at HINDUSTAN COPPER LIMITED KHETRI NAGAR.

“Complete outsourcing of Aerial rope Way” including operation, maintenance and security. Targeted ore transportation from Kolihan Mine stock pile to Khetri stock pile total 7.306KMS will be 6,30,000 MT per year. As and where basis.

Contract shall be awarded through **Two Part Bidding** among the shortlisted agencies participated in the EOI.

Interested parties are requested to submit their **EOI** in the prescribed format along with all supporting documents/credentials.

For detail information; please visit our website “www.hindustancopper ltd.com”

Last date of submission of EOI: up to - 24-12-2012 Time 3.30PM in the office of A.G.M(MECH.) SECOND FLOOR Administration building Hindustan Copper Khetri Copper Complex, Khetri Nagar Distt. Jhunjhunu Raj.

INTRODUCTION

BRIEF ABOUT BI-CABLE AERIAL ROPE WAY(HINDUSTAN COPPER LIMITED):

Bi-cable Aerial Rope Way in Hindustan Copper Limited, Khetri Copper Complex, Khetri Nagar(KCC), Distt. Jhunjhunu Rajasthan, was established by M/S PHB Germany in the year 1973 for the transportation of copper ore from Kolihan mine stock pile to Khetri Concentrator stock pile for a total distance of 7.306KMS. The whole Aerial Ropeway passes through the hilly terrain of the extended portion of the Aravalli hills.

Technical details of existing Bi-cable rope ways operating at our Khetri Copper Complex:

1. Length of haulage rope	15000 Mtrs
2. No of stations	6
3. No. of towers	55
4. No of buckets (designed)	200 Nos
5. Type of bucket	Tilting/bucket opening
6. Weight of empty bucket	700 Kgs
7. Cap of bucket	1395 Kgs (designed)
8. Tension of rope full side	50 T
9. Tension of rope Empty side	30 T
10. Tension of rope Haulage rope	10 T
11. Material transportation	Copper ore
12. Designed cap	200 T/Hour
13. Full side track rope Dia.	54 mm FLC
14. Empty side track rope Dia.	32 mm FLC
15. Haulage rope Dia.	28 mm
16. Distance between Loading and Unloading stations is	7306.51 MTRS
Drive – PHB German make friction hoist:	220 HP
Distance between ropes of full side & empty side ropes	3.5 Mtr
Normal velocity	2.8 m/Sec
Time taken for each round	90 Minutes
Alignment of rope is straight	

Purpose/Objective:

Hindustan Copper Limited has been operating Bi-cable Aerial Rope Way for ore transportation as per the designed capacity as above. HCL is having its expansion plans for Kolihan Copper Mines and we have to increase our ore transportation to achieve the targets. Preventive, predictive and corrective maintenance and expert operation are required on day-to-day basis to maintain the reliability and availability of the equipments of Aerial Rope way for sustenance of business continuity. Modification jobs to increase the reliability/efficiency or to eliminate unsafe conditions are to be carried out on need base. In this regard, Hindustan Copper Ltd.(KCC) is looking forward to outsource a contractor for better cost, quality control and timely execution with an objective to retain the safety ingredient and reliability of equipments of HCL. In order to achieve our objective, it is suggested that all interested bidders should visit our site for better understanding of the system and the objective.

SCOPE OF WORK:

The contract is for transportation of 6,30,00MT of Copper Ore per year from Kolihan Copper Mine Stockpile Area to the Stockpile of Concentrator plant of Khetri Copper Complex by Bi-cable Aerial Ropeway which is about 7306.51m long on **As and where basis** .

The detail scope of work is as follows :-

- a) Shifting of Kolihan mine ore through conveyor belt No-1 to the Kolihan mine stock pile.
- b) Operation and maintenance of inclined Conveyor Belt no-1 consists of approx 320 meter long & 1000mm width rubberised belt along with driving unit, head pulley, tail pulley, snub pulley, take-up pulley, bend pulleys, rollers, idlers & other related accessories. The whole conveyor system has to be maintained in a proper way so that smooth transportation of ore should take place.
- c) The ore is being fed to the conveyor Belt No-1 through two numbers of feeders (precisely feeder no-4 & 5). These feeders have to be maintained in operational condition all through the year. Normally these two feeders remain in running condition at the same time.
- d) The Kolihan stock pile height & spread has to be maintained using Dozers. The operation & maintenance of dozer is within the scope of the party.
- e) The ore from the Kolihan Stock pile is being shifted to the Loading Station ore bunker through the approx 320 meter long & 1000mm width rubberised conveyor belt. Simultaneously ore from the stock pile is being fed to the conveyor belt through the three number of feeders namely Feeder No-1, 2 & 3. The total electrical & mechanical maintenance of the conveyor belt along with the driving unit, head pulley, tail pulley, snub pulley, take-up pulley, bend pulleys, rollers, idlers & other related accessories & the earlier mentioned three number of feeders are within the scope of the party.
- f) The total structural maintenance of the conveyor belt no-1 & 2 are within the scope of the party.
- g) The total Loading station operation & maintenance are within the scope of the party. The overall maintenance & operation of the motor, Gear Box, Coupling, pulley, loading station structures, electrical panels, tripping logics, Booster motor, Bunker Chute & Ore spillage removal conveyor belt system .
- h) The overall smooth operation & maintenance management of the Conveyor system, Bucket assembly management system & management of the Full-side track rope (54mm dia.), Empty side track rope (32mm dia.) & haulage rope (28mm dia.) are within the scope of the party.
- i) Full-side track rope (54mm dia.), Empty side track rope (32mm dia.) & haulage rope (28mm dia.) are to be replaced time to time for smooth operation of the Aerial Ropeway.
- j) The overall maintenance of all the 55 number of towers & 6 numbers of stations namely (VV-1, SS-2, VV-3 & SV-4 and 2 Rail passes (RP-1 & RP-2) are within the party's scope.
- k) The overall structural maintenance of all the 55 number of towers & 6 numbers of stations have to be taken care of by the party.
- l) The party has to ensure the regular maintenance/replacement of rollers, cantilevers, necessary angle supports for the cantilevers, flying stays, saddles, saddle covers, limit switches, insulators, communication chords(2 numbers) between loading station & unloading station etc.
- m) The party has to take care of the protective concrete walls of all the 55 number of towers at the base to protect the base of the structure against any land slide. If any protective concrete wall is found non-existing then the same has to be provided by the concerned party to protect against any deterioration of the foundation of the tower.
- n) All the structures of the loading station, structures of the 55 number of towers, structures of the 6 number of stations & structures of the unloading station have to be mechanically checked on regular basis & have to be painted as & where required to enhance the longevity of all the structures.
- o) In all the 6 stations the tension of the empty side track rope & the tension of the full side track rope have to be checked on regular basis. The health of the pulleys & vollards are of major importance. In case of any discrepancy, that has to be rectified on urgency basis.

- p) In all the 6 stations the health of the rollers saddles, saddle covers & other related accessories are to be maintained properly. In case of any defect the same has to be replaced immediately.
- q) In the unloading station the party has to ensure the smooth operation & maintenance of the main driving unit (shoe chain drum), motor (250 hp, 1000 rpm), main gear box, differential gear box, couplings, shoe chain, bucket tilting mechanism, spacing chain & related mechanical & electrical equipments along with their accessories.
- r) The party has to ensure the smooth operation & maintenance of the only feeder located below the ore bunker.
- s) Finally the ore from the feeder is being fed to the KCC stockpile through a 370 meter long & 1000 mm width rubberised conveyor belt. . The total electrical & mechanical maintenance of the conveyor belt along with the driving unit, head pulley, tail pulley, snab pulley, take-up pulley, bend pulleys, rollers, idlers & other related accessories & the earlier mentioned one number of feeder are within the scope of the party. The smooth operation of the bucket tilting mechanism to ore-bunker-feeder & conveyor belt has to be ensured by the party.
- t) All the lightening arrangements at both Loading and Unloading stations will be in the scope of party.

B. SECURITY OF AERIAL ROPE WAY :

The round the clock security of the loading station – Station VV-1 – Station SS-2 – Station VV-3 – Station, RP-1 station ,Rp-2 station, SV-4 – Unloading Station & 55 number of towers is of great importance. Any theft in any tower or in any station can jeopardize the whole network & ultimately hamper the smooth operation of the plant. Security from loading to unloading station and will be done by the party. Round the clock security of Aerial Rope Way with security personal are within the scope of the party.

C. MINIMUM PRODUCTION LIMIT :

Kolihan Mines on behalf of HCL will ensure at least 3,00,000 MT of ore production annually. The cost for the transportation of at least 3,00,000 MT of ore will automatically borne by HCL in case the Kolihan Mines unable to produce the same annually.

Note: The terms bidder/ agency / party/vendor/contractor (Singular/ Plural) are used interchangeably hereto.

DISCLAIMER

All information contained in this, Expression of Interest (EOI) subsequently provided / clarified are in good interest and faith. This is not an agreement and is not an offer or invitation to enter into an agreement of any kind with any party.

Each bidder/contractor should conduct its own investigation and analysis & should check the accuracy, reliability and completeness of the information in this Expression of Interest. Applicants should make their own independent investigation in relation to any additional information that may be required.

Bidders Profile & Experience

Bidder's organisation & experience:

The bidders must have the following qualification criteria:

1. Technical:

Credentials:

The bidder must have inline experience in executing operation and maintenance of Bi-cable Aerial Rope way especially material handling rope way.

- (a) The bidder must have sufficient/proven infrastructure in India in order to operate and maintain Bi-cable Aerial Rope ways and by providing long term maintenance operation contract guarantying availability through on-site spare parts and service support.
- (b) The bidder must have minimum 2 years of proven working experience of operation and maintenance of Aerial Rope ways of at least 7.5KM long Bi-cable material handling Rope ways.
- (c) The bidder must have experience in operation and maintenance in transportation of material through material handling rope ways.
- (d) The bidder must have minimum annual turnover of Rs 1.00 crore in related business in any consecutive 12 months during last 5 years.
- (e) The bidder should be capable to provide the required skilled manpower for operation and maintenance of Bi-cable rope ways.

2. Commercial:

- (a) Bidder must have an average annual turnover of **01 (One)** Crore rupees in related business in any consecutive 12 months during last 5 years.

The bidder must submit the following along with the above techno-commercial criteria:

- a) Photo copies of VAT/ST Registration Certificate, Provident Fund Registration Certificate, IT PAN and Service Tax Registration Certificate.
- b) Annual turnover and balance sheet of last three years.

The interested bidders shall visit the site at HINDUSTAN COPPER LTD. KHETRI COPPER COMPLEX, KHETRI NAGAR DISTT. JHUNJHUNU RAJASTHAN to give their presentation on this field and their experience.

Note:

- ✓ EOI must contain the name of the company/Firm, credentials, name of the contact person with address, contact number (cell No., Fax no., e-mail ID etc.).
- ✓ Hindustan Copper Limited reserves the right to accept / reject any Expression of Interest (EOI) from parties without assigning any reasons whatsoever.

ANNEXURE – 1

GENERAL INFORMATION OF THE BIDDER

Note: Separate sheets may be used wherever necessary.

1. Name & Address of the Bidder.
2. Name & Designation of the concerned officer to whom all references shall be made.
3. Fax nos.:
4. Phone nos. / Mobile Nos.:
5. E-Mail ID:
6. Chief of the Organization:

E-mail Id:
Telephone:
7. Total No. of Employees/Manpower Strength:
8. Type of the Organization (Public Sector /Limited/Private limited/Partnership/ Proprietary /Society/Any other.)
9. No. of Offices/Centers (enclose the list):
10. Bidder's Proposal No. & Date:
11. Particulars of past experience of similar works furnished:
12. Any other information that bidder may like to give in order to highlight his bid:
13. Name & address of local representative, if any :

Place :

Date :

Signature of Party:

Name in Full:

Designation/Status:

Company Seal:

ANNEXURE – 2

NAME OF THE BIDDER :

DETAILS OF WORKS AND SERVICES OF SIMILAR NATURE DONE BY THE PARTY DURING THE LAST FIVE YEARS (which best illustrate Qualification):

S.N O.	NAME OF COMPANY	DESCRIPTION OF WORK	VALUE OF WORK	PERIOD		THE WORK IS DONE DIRECTLY OR THROUGH SUB CONTRACTOR	REMARKS
				FROM	TO		

Note: Photocopy of Performance Certificate / Completion Certificate of Owner in Support of the work mentioned above is required to be enclosed.

Note: Separate sheets may be used wherever necessary.
