

INVITATION FOR SUBMISSION OF EXPRESSION OF INTEREST FOR OPERATION & MAINTENANCE OF UNDERGROUND COPPER MINE AT SURDA, BENEFICIATION PLANT AT MOSABONI AND OTHER RELATED JOBS FOR EXPANSION OF MINE

Hindustan Copper Limited (HCL) is a Government of India Enterprise under the administrative control of Ministry of Mines. It was incorporated on 9th November 1967 under Companies Act 1956.

HCL is Country's only vertically integrated producer of refined copper from indigenous sources. Major activities of HCL are mining, ore beneficiation, smelting, refining and casting of refined copper metal into downstream products.

The Company manufactures and markets copper cathodes, continuous cast copper wire rods and by-products such as gold, silver, selenium, copper sulphate and sulphuric acid.

Annual turnover of HCL in the year 2014-15 was Rs. 1127 Crores.

HCL intends to outsource operation & maintenance of its underground copper mine at Surda and copper beneficiation plant at Mosaboni, Ghatsila in East Singhbhum district of Jharkhand State. The copper beneficiation plant is located at a distance of 8 km from Surda mine. The above mine is operational and is being maintained in healthy condition. It has an estimated 26 million tonnes of 1.17% grade copper reserves. The mine is connected with good metal road, power and water supply, township and communication facilities.

HCL is desirous of operating the above mine through collaboration/contract with a mining enterprise, which has sufficient resources and adequate experience of running mines. The firm shall be required to make the mine and beneficiation plant operational at his own cost and to mine at its optimal capacity and beneficiate the ore as per established standards to produce copper concentrate of minimum 25% copper grade. Copper concentrate will be delivered to Smelter Plant at Moubhandar, which is located at a distance of 12 km from the copper beneficiation plant. The firm shall also be required to make the mine capable to enhance the production capacity from present 0.4 million tonne per annum (mtpa) to 0.9 mtpa by sinking of new vertical shaft, deepening of existing winzes, commissioning of new ore hoisting system and related other allied developments. The incidental ore generated from another nearby Kendadih Mine shall also be transported to beneficiation plant at Mosaboni and shall be treated to produce copper concentrate. The whole operation shall be carried out on mutually acceptable terms and conditions.

Expressions of Interest (EoI) are invited from interested party/organizations for undertaking the above jobs on a turnkey basis.

Interested parties should indicate the following in their EoI:

- (i) Brief description of the organization, stating nature of business, type of Company, location and details of management and ownership.
- (ii) Experience in the related field of mining; mines owned or operated with details of production, manpower, equipment employed etc.
- (iii) Financial capability.

The interested parties, based upon their EoI, will be required to make Power Point presentation of its credentials, which will be followed by pre-application conference, the dates for which shall be informed in advance.

The selection of the interested party for the work shall be done by HCL thro' an open tendering process in due course of time. The selected bidder will be required to undertake all the activities as a composite work at his own cost. It is made clear that HCL will not spend or contribute any cash at any stage in any manner for this project.

The management reserves the right to reject all or any of the applications without assigning any reason thereto.

EoI should be submitted on or before 10.06.2016 to:
