

Hindustan Copper Limited

Gujarat Copper Project

Sub.: Expression of Interest (Eoi) for Cutting Blister Copper at Gujarat Copper Project.

1.1 General

The Copper Smelting & Refining Plant of Gujarat Copper Project (formerly Jhagadia Copper Ltd. / SWIL), a Unit of Hindustan Copper Ltd. (A Govt. of India Enterprise) was commissioned in 2004. The assets of the Unit have been taken over by Hindustan Copper Ltd. and after re-furbishment / re-vamping, the subject Unit is to be re-commissioned.

- Project Information: Key feature of the Site

Location	:	Plot No: 747, GIDC Mega Estate, Jhagadia, Dist: Bharuch, Gujarat- 393110
Nearest Railway Station	:	Bharuch (14 Km from Site)
Nearest Airport	:	Vadodara (85 Km from Site)

1.2 Plant Introduction

The Copper Smelting& Refining Plant of Gujarat Copper Project comprises of the following Units:

- Kaldo Furnace for smelting of Secondaries
- Converters
- Slag granulation
- De-dusting Units I, II&III (Bag Filters for Kaldo, Converter & Anode Furnace Flue gas)
- Anode Furnaces & Anode Casting Wheel
- Refinery& Purification
- Effluent Treatment Plant
- Plants / Facilities for Utilities – Drinking & Process water storage & distribution, Process / Instrument Air, D. M water / Soft water, Boilers for Steam generation, Propane Storage & distribution, Fuel Oil storage & distribution etc.

- Electrical Switchyard with Main Sub-station & Sub-Station at various Plant locations

Intent of Eol:

- 1.3.1 The intent of this Expression of Interest is to understand the available size of blister copper to be cut including the copper moulds, launder copper, etc into pieces of required size.

Bidders should visit the site and inspect the material. This may help you to decide upon the type of machine or the methodology to be used to cut the blister and big size copper pieces to the required sizes.

SCOPE OF WORK:

A. Blister Cutting:

- 1) Shifting of Blister Copper from Stockyard to cutting area

Size of Blister Copper available (in mm)

1. Length	=	900
2. Width	=	900
3. Thick	=	300

- 2) Cutting of Blister Copper to the required size given below.

Required size (in mm)

1. Length	=	900 max.
2. Width	=	450 max.
3. Thick	=	100 max.

- 3) Quantum of cutting shall not be less than 30 Tonnes per day.
- 4) **Quantity:** Quantity of Blister Copper shall be 1000 Tonnes with +/- 100%.

B. Other Copper Cutting:

- 1) Copper Mould : Approx dimension 1180mm X 1220mm X 210mm
- 2) Wire bar mould : Approx dimension 1650mm X 620mm X 320mm
- 3) Rectangular mould : Approx dimension 1540mm X 370mm X 370 mm

These items shall be cut in four equal pieces and shifted to the designated places.

Approximate quantity: 100t

Interested parties should ensure that Eol is submitted on or before 05.07.2016 up to 3.00 pm by providing credentials to overcome similar type of jobs in the past. The parties shortlisted from Eol shall be issued tenders for submitting

their commercial offers. The work shall be awarded to the lowest offer submitted.
